MEGAHIT HEALTH ORGANIZATION - (MHO)

- Megahit Health Organization is a private non profit-making organization dedicated to maximize impact on public health.
- As a Non-Governmental Organization (NGO) committed to humanitarian efforts, we strive to create positive changes by addressing key health issues facing communities, implementing sustainable solutions, providing valuable resources and funding in the field of public health research.
- We achieve this through community entry, persistent health service provision, health behavior change and boundless innovations.
- Therefore, we have a conscious effort to proliferate government efforts on public health in response to the apparent demands in health trends.
- Megahit Health Organization provides comprehensive and holistic healthcare solutions that empower societies to live healthier. It was founded in January 2023.

I believe individuals deserve the right to optimal health, regardless of their socioeconomic status and/or geographic location.

AUTHENTICITY OF THE ORGANIZATION

Megahit Health Organization is registered and recommended to serve by:-

1. The Uganda Registration Services Bureau (URSB);
2. The Uganda Revenue Authority (URA);
3. The Ministry of Health (MoH);
4. The Ministry of Education and Sports (MoES);
5. The District Local Governments;
6. The Stanbic Bank Limited of Uganda; and
7. The other National patents.

SCOPE OF OPERATION

Our areas of focus provide an overview of the comprehensive services and projects we offer to maximize impact on public health.

Megahit Health Organization's participation towards the attainment of the **17 Sustainable Development Goals (SDGs)** is currently grounded on 6 pillars:-

○ GOOD HEALTH & WELL-BEING;

We are dedicated to foster health systems for health security that promotes good health and well-being.

We are determined to combat maternal and child mortality high rates, HIV/AIDs, malaria and other diseases.

We focus to adopt a holistic approach to health, addressing not only health needs but also social, economic and environmental determinants of health.

We aim to provide health education and awareness programs to empower individuals and communities with knowledge and skills to make informed decisions about their health and support people to adopt healthy behaviors and lifestyles.

We look forward to operate health centers, mobile outreach health camps to deliver healthcare services directly to those in need and offer a wide range of diagnostic tests and services to support accurate diagnosis and treatment.

We encourage community engagement and involvement in all our initiatives, ensuring that interventions are culturally appropriate and sustainable.

We support initiatives that strengthen healthcare systems, distribute medical equipment, improve healthcare workforce capacity, build or renovate infrastructures that enhance health service delivery.

We are determined to implement disease prevention initiatives such as deworming programs, vaccination campaigns, safe male circumcision, vector control initiatives, disease screening and early detection programs, substance abuse and violence prevention programs, pre-exposure prophylaxis and post-exposure prophylaxis for HIV to reduce the burden of preventable illnesses and alleviate suffering.

We partner to ensure that children have access to the vaccines they need to survive and thrive;

We assess and monitor public health risks, mobilize rapid response teams, and provide emergency health care, humanitarian aid, mental health and psychosocial support to affected populations for saving lives.

We advocate for policies that promote equitable access to healthcare, address health disparities and strive to raise awareness about pressing health issues and drive positive changes at local and international levels.

We offer capacity-building workshops, training programs and skill development initiatives to enhance the knowledge and capabilities of healthcare providers and community health workers.

We participate in **planning investments for initiatives on digital health change and set health standards, precautions and guidelines.**

We assist individuals in accessing specialized healthcare services by providing referrals and facilitating the process of accessing appropriate care.

We organize health runs and fitness programs to encourage physical activity and promote a healthy lifestyle.

We partner to offer comprehensive reproductive health services including family planning, pregnancy checkups and prenatal care.

We partner to provide post-abortion care services including counseling and medical support to ensure the well-being of individuals who have undergone abortions.

We also offer valuable resources, tools and funding to advance scientific knowledge and understanding in the field of health.

○ SUSTAINABLE AGRICULTURE & FOOD SECURITY;

We are dedicated to promote and foster sustainable agriculture and food security that improve nutrition.

○ QUALITY EDUCATION & ECONOMIC GROWTH;

We are determined to support the education and economic training of children and families from socially disadvantaged backgrounds.

We look forward to establish family resource centers that rehabilitate and provide functional basic needs to people with disabilities, orphanage and vulnerable persons.

We aim to create an income-generating project that supports the needy for economic growth and transformation of their homesteads.

○ CLIMATE ACTION & ENVIRONMENTAL SUSTAINABILITY;

We are determined to partner and combat climate change with its impacts and ensure environmental sustainability.

We focus to improve on proper management of natural resources in societies through re-forestation methods and among others.

○ SAFE WATER SUPPLY & SANITATION;

We work towards ensuring access to safe water sources and promote a healthy living environment.

○ PARTNERSHIPS.

We are dedicated to develop global partnerships and enter into memorandum of understandings or agreements for sustainable development.

We collaborate with medical stores, hospitals, health professionals and relevant agencies to leverage resources and amplify impact on public health.

Through partnerships with research institutions and other organizations, we aim to drive feasible innovations practically and theoretically that contribute to evidence-based practices.

@ Megahit Health Organization - (Mho)

“We aim high to create a future where preventable diseases can be eradicated”.
